HOW WE STARTED

In 2011, our company's founder and CEO, Timothy Porter saw a news article about a young student who took his own life because of bullying. Tim wanted to make a difference so out of his home garage, Appddiction Studio was born. He created an app that allowed students to anonymously and immediately report incidents of bullying to school administrators, in real time, accompanied by video footage or photos of the event. The app empowers many young lives and has earned multiple accolades and awards. This is what drives us at Appddiction Studio and why we are so passionate about our work.
